Healthcare communications that's more than just talk

HIPAA Compliant Voice and Video

PARTNER NAME has partnered with Phone.com to offer a HIPAA Compliant communication solution for healthcare professionals.

Phone.com is the modern, work-fromanywhere solution for today's agile, mobile, and always-on healthcare practices.

Your healthcare practice needs to be connected, but also secure. Phone.com offers the ease and convenience of a cloud-based phone system along with the ability to protect the privacy and security of patient information.

Sign up and start making and receiving calls within minutes. Phone.com works with your mobile device, laptop, or IP-enabled desk phones.

The Phone.com solution includes advanced phone features you need to serve your patients effectively and professionally. Advanced call handling options enhance your image, and mobility features keep you connected with colleagues, patients, and partners whether you're in the office or on the go.

With Phone.com you get:

- ✓ HIPAA and HITECH compliant voice and video. All Phone.com phone plans are HIPAA compliant along with two Video Meetings Plans. Business Associate agreements are available.
- Communications that just works on any device. Phone.com can support physical phones as well as mobile devices and softphones.
- A modern feature set that includes conferencing, texting, sophisticated call management, and more.
- An automated text responder for HIPAA compliance. You can set up Phone.com to notify your patients that they should contact your office a different way to discuss medical information.
- ✓ Unparalleled support. Our support team is standing by 24/7 to help you succeed.

The Phone.com Experience

No more using a personal number for business.

Business phone numbers create a more professional impression and give you more control over patient relationships.

Enterprise features at a fraction of the cost.

Greetings, Automated Attendants, and Hold Music provides callers with a first-class experience, even if you are a one-person show.

No implementation headaches.

Start communicating immediately after choosing our inventory of over 20 million phone numbers. Use your mobile device, PC, or IP desk phone.
